

# AT-HOME LEARNING

Free School & District Licenses During COVID-19

# There's no question that these are difficult times.

**We hope we can provide your students with some great digital learning tools by offering our products to you for free during this time, no strings attached.**

Hundreds of millions of students around the world are transitioning to at-home learning for the rest of the school year. Educators are rapidly shifting teaching and learning to digital platforms to meet the needs of each student with equitable access, standards, and engagement.

These RevRoad portfolio companies are uniquely positioned to help students, teachers, schools, and districts address these urgent educational needs equitably during the COVID-19 pandemic. While many education companies seek to sell their products during this time, these companies are gifting licenses to an impressive package of educational programs and tools until the end of the 2019/2020 school year.

“Educators around the world are now facing the most daunting challenge in 100 years. These programs and tools are ready to scale, and can provide valuable support for students, their families, and educators.”

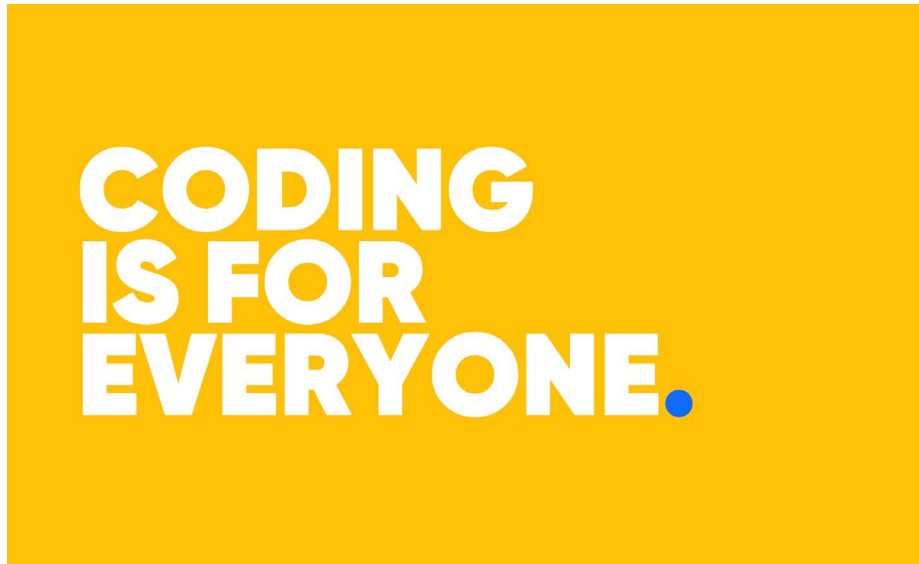

—Derrin Hill, CEO of RevRoad

# Free Access to Voyage

## Description

Skill Struck focuses on helping today's students prepare for tomorrow's workforce by developing their technical skills and helping them master the concepts of Computer Science. Within Skill Struck Voyage's engaging learning platform, regardless of past experience, students can begin a pathway towards learning Web and Software Development, while mastering top languages such as Javascript and Python.

With a built in-text editor, video help, a code autograder, and creative challenges, Voyage is designed to be accessible for all students. As they progress through the curriculum, each student will create various projects and their own personal portfolio. The platform is focused on project based learning where students learn, apply and reiterate their newfound knowledge through additional practices to cement their skills.

## Terms

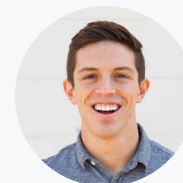

Access to free student accounts to Skill Struck Voyage will be available for one month.

## Sign Up Process

1. Visit [skillstruck.com/free](https://skillstruck.com/free)
2. Fill out the form on the web page.
3. Receive further instructions for onboarding your school or district.

*"It's awesome because the kids say it doesn't feel like 'work. It's more interactive and fun. It gets the kids involved and participating even while I'm remote. All of my kids are doing really well with the Skill Struck material at home. They are seeing it as a reward and something fun rather than just another class."*

—Upper Elementary Teacher at Bonneville Academy

# Free Access to Ultra-Engaging Books

## Description

Keep students fully engaged in reading, even while at home. Literal makes books just as engaging as social media, and is temporarily offering every student and educator free & unlimited access to all of their classic books through July 2020. Easily track student progress remotely and turn reluctant readers into avid book worms.

Literal is a multi-modal reading engagement platform built to entice, motivate, and delight reluctant readers. Literal combines an author's original content with the latest reading strategies in a fresh, text messaging-like format for reading. We incorporate reading strategies like text chunking, variability, color encoding and personalization directly into the presentation of a narrative text. Combine that with the ability to turn any book into a more culturally relevant title, and you have a reading tool that gets students hooked on reading.

Literal is as easy to deploy as handing out a paperback. It works alongside your existing curriculum or as a standalone reading tool for in-class or at-home instruction. Educators can see in real time which students are actively reading, when they were last active, which books they are reading, student progress, and more.

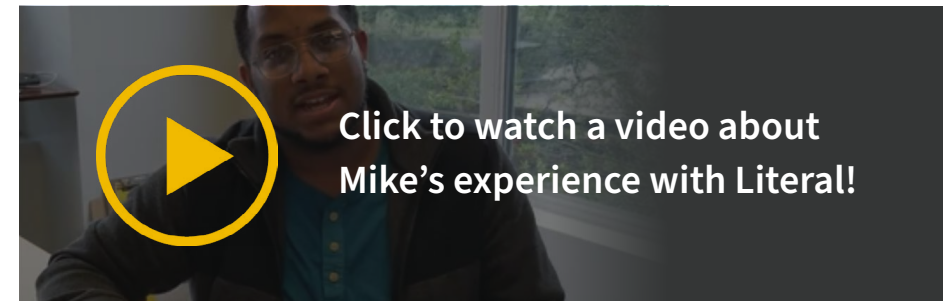

## Terms

No billing info needed. No commitment required. Nothing to install. Works on all devices. Access granted to all students in your district. Students can access over 100 of the most popularly assigned classic titles from anywhere.

## Sign Up Process

1. Register [by clicking here](#) and using promo code: FreeClassics
2. Once you register, you'll receive a unique link to share Literal with all of your students, so they can also register for free, and you can track their progress.

# Free Access to Positive Thinking Pack Courses

## Description

ACCI Lifeskills, the parent company of Education Lifeskills, received consistent feedback about its curriculum from its criminal justice clients and program participants—they wished that they had been taught ACCI’s essential cognitive lifeskills while they were in school to avoid painful consequences. As a result, Education Lifeskills provides a catalog of courses aimed at early prevention.

We have learned that far too often the discipline measures put forth by the school or school district are largely ineffective. When programs intervene in both the underlying thinking errors and the negative behavior, a more permanent change in behavior is achieved.

We are excited to form partnerships and relationships with schools, school districts, and communities that understand the value of SEL (Social & Emotional Learning) and cognitive-behavioral curriculum which help students overcome their self-defeating thoughts and behaviors and achieve higher levels academically and socially. As a society, our way of life depends on the ability of the rising generation to be prepared to meet current and future challenges.

## Terms

Education Lifeskills will provide free online access until the end of the 2020 school year to a Positive Thinking Pack of courses including Positive Thinking Skills, Infinity Media Awareness, and Leadership.

## Sign Up Process

1. Visit [educationlifeskills.com/athomelearning](https://educationlifeskills.com/athomelearning)
2. Fill out the form on the web page.
3. Receive further instructions for onboarding your school or district.

*“Education Lifeskills has been a program I’ve been looking for to provide restorative outcomes to our students. Lifeskills courses, in conjunction with counseling services, have been a gamechanger for our administrators and counselors looking to keep students engaged in school. Our 3-month pilot has gone very well, and we look forward to embedding the program into our daily student supports (socially, emotionally, and behaviorally).”*

—Don Scatena, Student Services Director San Mateo School District

# Access to English Practice on the Hallo App

## Description

Has the Coronavirus pandemic interfered with your preparation for the TOEFL, TOEIC, or IELTS exam? Has your English class been canceled and now you are left with no one to practice with?

Fear no more! You can practice English on the Hallo app! Hallo is a live streaming community for English learners and teachers. Students can learn from native speakers through live videos 24/7 and practice speaking in seconds with people all around the world. It's the world's largest classroom for English learners right in the palm of your hand. And, it's free. Let's celebrate fluency together. It's more fun that way.

## Terms

Hallo is a free app available for iOS and Android.

## Sign Up Process

1. Visit [hallo.tv/athomelearning](https://hallo.tv/athomelearning)
2. Click to download the app and sign up!

*"Hallo helped me to speak while I was not able to speak even a sentence. Through the Hallo app, I have met a lot of amazing people around the world and become friends with so many people. It has filled me with so much excitement to keep improving my English. My two favorite features are livestreams from English teachers and InstaMatch with other English learners. I have been using Hallo for 1 year and have learned so much from native speakers. Speaking with other English learners on InstaMatch helped me overcome my fear of speaking. I am so grateful for the Hallo app. Because of it, I can speak English so well and I am happy."*
